Write in the activity that needs to be worked on below the heading “Math”, “Reading”, “Writing”, or “Other“. For example, under the “Math” column in the empty box next to “Monday” write in “Multiplication Table by 7’s”. Once this activity is complete have your child place a check under the “Done?” column to keep track that the activity was completed.

Next, the “Difficulty Rating” column allows you and/or your child to rate how well they did the activity. The “1” means we need to work harder or get some extra help, “2” is getting better but still needs some work, and “3” means good job! Alternatively, you can use the “Difficulty Rating” fields to rate the difficulty level of the activity. The “1” means the activity was hard to complete, “2” is medium level activity not hard but not easy, and “3” is easy to complete. Get feedback from your child by having them rate the activity. What we might think is easy could be difficult to your child and some activities are easy for your child that you think are difficult.

“I Can Do It”  “I Will Do It”  “I Did It”
